Education

B.Tech in Computer Science and Engineering: Veer Surendra Sai University of Technology *Expected 2027*
CGPA: 9.12 (Up to 6th Semester)
Intermediate: DAV Public School, Pokhariput *2022*
Percentage: 94.4%

Skills

Programming & Scripting: C, C++, Python, SQL
Tools & Platforms: Git, GitHub, VS Code
Systems & Networking: Windows, Linux, basic networking, firewalls
Frontend Technologies: HTML, CSS, JavaScript, React, Vite
Backend Technologies: Node.js, Express.js, MongoDB, API Integration
Frameworks & Libraries: Streamlit
Data & ML: MySQL, Pandas, NumPy, TensorFlow, Scikit-learn
Soft Skills: Soft Skills: Clear communication, task ownership, collaboration in team-based projects

Achievements

JPMorgan Chase & Co. – Code for Good 2025
- Selected among **top 0.17%** (from 65,000+ applicants) to be part of the final 108 invited to the Mumbai office.
- Engineered a functional prototype within 24 hours using collaborative coding and data analysis, assisting Purnata NGO by visualizing human trafficking patterns and prioritizing resource allocation in high-risk districts.

Myntra HackerRamp: WeForShe 2024
- Advanced to Phase 2 by designing and implementing features for an inclusive fashion e-commerce platform, ranking in the top **4.1%** of participants and demonstrating scalable solution development.

The Hyperloop Effect – IIT Madras
- Finalist among top **3%** of teams by developing a detailed project plan with design analysis and resource coordination, improving feasibility evaluation and execution strategy.

Ideathon – IIT Bhubaneswar & BIS
- Won **1st Prize** by developing an innovative solution on *"Integrating Reimagining Core Branches with AI"*,designing and implementing a working solution under strict timelines with coordinated team execution

Experience

Research Intern, IIT (ISM) Dhanbad *Summer 2026* *SRIS – Under Dr. A. C. S. Rao*
- Collaborated in a 5-member team to develop a multimodal cardiac disease detection system integrating ECG, Echo, biosensor, and lipid-profile data.
- Developed an intermediate fusion model with multi-head cross-attention, achieving 0.942 validation AUROC, and enabled AR/VR-based risk visualization using FastAPI and WebXR.

Research Intern, IIT (ISM) Dhanbad *Winter 2025* *Under Dr. A. C. S. Rao*
- Developed a multimodal XAI pipeline integrating clinical and ECG-derived features, improving diagnostic interpretability by 30
- Evaluated explanation robustness using Insertion–Deletion Curves, Shadow Plots, and Infidelity metrics, ensuring reliable model predictions under noise.

Projects

Smart Reminder Tracking Extension — *MERN Stack, Manifest V3, Twilio API* (View Project)
- Improved task and opportunity tracking efficiency by 40% by building a browser extension that captures data from LinkedIn, Instagram, and YouTube into a centralized dashboard.
- Enabled 100% timely actions through automated SMS reminders using Twilio API, with real-time data synchronization powered by the MERN stack.

Designer's Corner — *React.js, Vite, Tailwind CSS, Node.js, Express, MongoDB, Cloudinary* (View Project)
- Developed a full-stack fashion platform (3+ categories) where designers can showcase their work and directly connect with companies and industry professionals using scalable REST APIs.
- Built role-based dashboards with engagement features like likes, comments, and collaboration requests, enabling designers to gain visibility, feedback, and real-world opportunities.

Extra-Curricular Activities

- **Tata Imagination Challenge: Semi-Finalist**, progressed through two competitive rounds.
- Secured **2nd Prize in RoboSumo at Innovision 2024**, NIT Rourkela's annual tech fest, as part of Team Dheera (VSSUT Robotics Society).
